

## Botole per la manutenzione

### Revisione

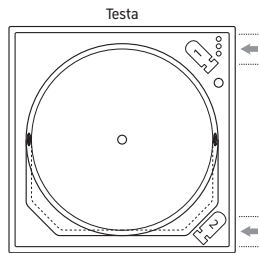

Montare la vasca idromassaggio in modo che tutti i gruppi rimangano accessibili (pompa, ventola e comando). Per facilitare la revisione si consiglia il montaggio con un pannello di rivestimento rimovibile.

### Posizionamento dei componenti dei sistemi idromassaggio

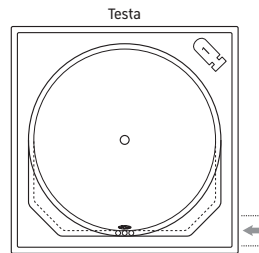

Le figure mostrano la configurazione standard dei componenti del sistema idromassaggio\* con posizionamento dell'unità di comando. Dalla parte della testa si trova il massaggio dorsale (a seconda del sistema idromassaggio).

Versione speciale su richiesta. Per questo caso è necessario un disegno che mostri la disposizione desiderata. La realizzazione della disposizione desiderata verrà verificata e confermata da Duravit.
